

Accountant

Are you passionate about accounting, keeping accurate reports and working in an international environment where things never stand still? Do you bring the heart and mind of a startup mentality? Do you want to work with cutting edge B2B solutions together with a team of 20 rock stars in the busy global Internet of Things space - then this is the job for you.

Our company is in a high growth phase and we are looking for a team member to strengthen our finance department. You will be a key person working with a variety of tasks involving making sure our books are accurate and reflecting our business.

Essential responsibilities includes:

- Preparing, delivering and managing the daily financial tasks such as accounts payables and accounts receivables
- Keeping COGS and stock values accurate with FIFO
- Revenue recognition compliance
- Payments and cash collection
- Cash flow reporting
- Project accounting
- Ensure general expense reporting

You will continuously work with the CFO to improve process, quality and make sure we deliver reports of highest standard that can give new insights and drive the business in the right direction.

To fit this challenge and fully appreciate the role you

- take responsibility seriously
- take pride in ownership of a process
- enjoy keeping things in order
- must ensure the quality in everything you do
- have strong work ethics, are pro-active and focused

Experience

- At least 3 years with, what is for us, relevant accounting
- Bachelor's degree or equivalent
- Preferably worked at a manufacturing company or with merchandise inventory
- Good knowledge in excel

You will report directly to the CFO and will be positioned at the Yanzi Head Quarters, based in Kista, Sweden.

We take applications in both English and Swedish, however you must be comfortable in English. Please send in your CV and personal letter to emmeli.hoglund@yanzinetworks.com labelling your email "Accountant".
