

Stockholm 1<sup>st</sup> of February 2014

# Yanzi will showcase at JFokus IoT in Stockholm

---

A team from Yanzi will showcase the Yanzi Internet-of-Things platform at JFokus in Stockholm. We will demonstrate how sensors can connect to our platform automatically with full encryption. On Tuesday afternoon, our CEO Lars Ramfelt will present the Yanzi IoT platform and developer's kit. Joakim Ericsson from SICS will also hold workshops based on the Yanzi products and technology. Very welcome to join us at JFokus!

About JFokus IoT

JFokus 2014 is a Java developer's conference that takes place in Stockholm February 3-5 at the Stockholm Waterfront Conference. Please visit [www.jfokus2014.se](http://www.jfokus2014.se) for more information.

Yanzi – Internet your things!

With the Yanzi Internet-of-things software platform, service providers can connect billions of things to millions of users to create new exciting services and revenue streams. The cloud service delivery platform allows users to wirelessly connect devices in a true Plug & Play fashion (Patent Pending). The Yanzi software is based on open standards and makes Internet-of-things dramatically easier to develop and deploy. Our mission is to deliver real and robust Internet-of-things solutions to the customers in a record-short time to improve their business performance. Key market applications are; remote site management, smart lighting, smart & secure home and smart cities. The technology is available globally through a network of professional systems integrators and leading service providers. For additional information please visit [yanzi.se](http://yanzi.se).
